# WANT TO INCREASE PRODUCTIVITY AND SAVE TIME AND MONEY?

MORE PRODUCTIVITY MEANS MORE PROFITS!

WHAT IS EDI?

Short for Electronic Data Interchange, EDI transfers documents from one computer system to another. EDI will streamline your entire order process so you don't have to manually generate documents like purchase orders, acknowledgements, quotes, invoices or shipping notifications. No more worrying about incompatible computer systems! Using ASI/EDI information, data is communicated quickly, efficiently and accurately.

Decreased Errors

Improved Transaction Speed

Benefits of EDI

Increased Accuracy

Improved Operational Efficiency

Increased ROI

WHAT MAKES EDI SO EFFECTIVE?

- **Cost Efficiency** – Reduce paper volume and see immediate savings! No more rekeying orders means less administrative costs.

- **Increased Speed** – Electronically exchange documents with your business partners instantly so you spend less time processing orders!

- **Improved Accuracy** – Eliminate manual data input errors!
